Plex Sans Light 7pt, 9 lead can be used for

The RF-3165-AT122 dismount antenna is a center-fed dipole antenna engineered to connect directly to the highband port of the AN/PRC-117G(V)1(C) and RF-7800M-MP Falcon III® manpacks. The antenna features a flexible gooseneck base, a tubular-shaped upper radiator and a passive matching network that supports operation over
