# REAL-TIME ASSET TRACKING AND SITUATIONAL AWARENESS

StatusAware supports In-Band and Tier 2 GPS to provide immediate location updates. L3Harris radios work with In-Band GPS to reduce data traf c over the network by sending location updates only when the radio is keyed as part of a voice call. Tier 2 GPS uses data for location updates and can be con gured per user for Push-To-Talk (PTT) emergency and time/distance triggers.

This VIDA-powered application is interoperable with the P25 Autonomous Data Chan56k8a,-(- ET EMC /Span <</Lang (en-US)/MCID 59 >>BDC BT 9 0 0 9 36 407.62 Tm

## KEY BENEFITS

- Clear view of personnel and assets drives faster response times
- Provides dispatchers with a single interface to view location information, increasing organizational efficiencies
- Open standards-based for greater system interoperability
- Integrates with L3Harris BeOn® to extend Location Services to broadband-enabled Land Mobile Radios and smart devices

Non-Export Controlled Information

L3Harris Technologies is an agile global aerospace and defense technology innovator, delivering end-to-end solutions that meet customers' mission-critical needs. The company provides advanced defense and commercial technologies across air, land, sea, space and cyber domains.
