## MUOS and SATCOM Connectivity for Forces On-the-Move

Compact and lightweight, the MUOS Dismount Antenna connects to the L3Harris Falcon III® AN/PRC-117G manpack via a diplexer to keep ground forces connected while on-the-move. The RF-3169-AT001 is hemispherical, ideal for the dismounted soldier and operates within the 300 to 380 MHz range. The antenna includes a gooseneck feature that allows flexible rucksack-worn or inthe-ground placement.
